

A decorative graphic on the left side of the image, consisting of a grid of squares and triangles in various shades of blue and teal, separated by thin white lines.

DISCOVER™

# DISCOVER™

The Discover™ is a functional entry level workstation chair, and is a project favorite especially when working within tight client budgets.

Giving exceptional value, the Discover Chair™ incorporates unique design and individual ergonomic comfort & support.

The image shows a side profile of a modern ergonomic office chair. The chair has a black frame and a grey upholstered seat and backrest. The backrest is shown in a reclined position, indicated by a curved blue arrow. The seat is also shown in a reclined position, indicated by another curved blue arrow. The chair is set against a white background with a light blue geometric pattern of lines and triangles. The text 'ERGONOMIC ADJUSTMENTS' is centered in the upper left, and 'Independent seat & backrest adjustments.' is centered below it.
