

HOW TO USE THE DISCOVER CHAIR

**WELCOME TO THE DISCOVER EXPERIENCE,
HERE'S HOW TO SIMPLY ADJUST YOUR NEW DISCOVER CHAIR.**

1ST LEVER:

The front lever on your right adjusts the seat height.

2ND LEVER:

The middle lever on your right adjusts the seat angle, lift to set in position and then release.

HOW TO USE THE DISCOVER CHAIR

3RD LEVER:

The back lever on your right adjusts the backrest angle, giving you independent control, release to set once in the desired position.

4TH ADJUSTMENT (SEAT SLIDE):

Lean back on your chair and lift up the left side lever to increase seat depth for taller individuals.

5TH ADJUSTMENT:

To adjust the backrest height, undo the handwheel on the base of the backrest and lift to the desired position and tighten the handwheel.

Height adjustable armrest: Click to adjust, and then release to set in desired position.

Designed to correctly support many shapes and sizes in Australia's workforce, hope these photos help you experience the Discover Chair better!
